

Music Mind Academy

IT Privacy Summary for School Administrators

Quick Reference

Student PII Collected	NONE
Student Accounts Required	NO
Student Email Required	NO
Data Sold to Third Parties	NO
Advertising	NONE
AI Training on Student Data	NO
FERPA Compliant	YES
COPPA Compliant	YES
NY Ed Law 2-D Compliant	YES
DPA Available	YES

Domains to Whitelist

Required domains (HTTPS, port 443):

- musicmindacademy.com
- *.firebaseapp.com
- *.firebaseio.com

If your school uses Google Workspace, Firebase domains may already be allowed.

How Students Access the Platform

1. Teacher starts a session and receives a class code (e.g., "TIGER")
2. Students go to musicmindacademy.com and enter the class code
3. Students are **randomly assigned a nickname** (e.g., "Wild Panda") — no login required
4. Students complete activities — work saves to their own device (localStorage)
5. Session ends — no persistent student data remains on our servers

No student accounts. No student emails. No student PII.

Data Collection Summary

Data Type	Collected?	Details
-----------	------------	---------

Student Real Names	NO	Never collected
Student Emails	NO	Never collected
Student Accounts	NO	Not required
Student Nicknames	YES	Randomly assigned, not linked to identity
Activity Scores	YES	Associated with nickname only, during session
Student Work	LOCAL ONLY	Saved to student's device, not our servers

Third-Party Subprocessors

Service	Purpose	Data Processed
Firebase (Google Cloud)	Database & Auth	Teacher accounts, session data
Vercel	Frontend hosting	Static files only — no student data
Railway	Backend hosting	API requests — no persistent student data

NOT used: Google Analytics, Facebook Pixel, advertising networks, behavioral tracking

SSO & Rostering

Music Mind Academy does **not require** Clever, ClassLink, or district SSO integration. Students join via class codes without accounts. Teachers authenticate via Google or Microsoft OAuth.

Breach Notification

In the event of a data breach: notification within **72 hours**, details of affected data, remediation steps, and cooperation with state reporting requirements.

Note: Because we collect no student PII, breach impact would be minimal — only randomly-assigned nicknames that cannot identify real students.

Data Privacy Agreements

Ohio: NDPA signed. Exhibit E available for other Ohio districts.

New York: NY Ed Law 2-D compliant. DPA available on request.

All states: Contact us to discuss your DPA requirements.
